

A Little Past Little Rock

C F
I had to leave my life in Dallas, that town will always be you
C F
In every crowd on every corner, in every face I'd see you
C
So with nothin' more than a tank of gas I drove away without lookin' back
F Am G7
And I guess that's how I got where I am, goin' anywhere as fast as I can

F
And I'm a little past Little Rock, further down the line
C
Too soon to know what's up ahead, too late to change my mind
F
I gotta keep my heart out of this, and both hands on the wheel
C
I'm learnin' more with every mile just how leavin' feels
F Am
It's a lonely stretch of blacktop out into the blue, don't know where I'll
F
go or what I'll do
C G7 C
I'm a little past Little Rock, but a long way from over you

C F
These headlights on the highway, disappear into the dark
C F
And if I could have it my way, I'd go back to where you are
C
Oh but I can't turn this thing around, and nothin' short of breaking down
F Am G7
Is gonna get me off this road I'm on, and I'm still a far cry from gone

CHORUS

C G7 C
I'm a little past Little Rock, but a long way from over you
