

Summertime by The Mowgli's

INTRO: D

[Verse 1]

G

It's getting heavy

I'm going crazy

C

A little bit of rock and roll

Eyes closed to the radio

G

And when you touch me

It's almost like you love me

C

I kinda think that you might know

The way I'm feeling

[Chorus]

G

Oh, I can't get you off of my mind

C

And I think that it's alright

Cause looking back

G

I'm falling in love with you every single night

You know that feeling, right

D

Where everything is fine, just fine

G

C

Em

D

I keep falling in love with you in the summertime

D

G

C

Em

D

I keep falling in love with you in the summertime

D

I keep falling in love with you in the summer

[Verse 2]

G

You're looking brand new

Hands out the sun roof

C

And I just can't deny it

Don't act like you don't like it

G

The mess you make me

Don't recognize who I've been lately

C

You've got me flying

Straight through the roof

[Chorus]

G

Oh, I can't get you off of my mind

C

And I think that it's alright

Cause looking back

I'm falling in love with you every single night
 You know that feeling, right

Where everything is fine, just fine

I keep falling in love with you in the summertime

I keep falling in love with you in the summertime

[Bridge]

I guess I'm facing the truth that you finally won

You got that look in your eyes like a loaded gun

In a place, in a time that I never was

It's all because I'm coming undone

[Chorus]

I can't get you off of my mind

But I think that it's alright
 Cause looking back

I'm falling in love with you every single night
 You know that feeling, right

Where everything is fine, just fine

I keep falling in love with you in the summertime

I keep falling in love with you in the summertime

I keep falling in love with you in the summertime

I keep falling in love with you in the summertime

I keep falling in love with you in the summertime

I keep falling in love with you in the summertime

I keep falling in love with you in the summertime
