C
On the morning when I woke up without you for the first time
C G C
I felt free and I felt lonely and I felt scared
F Am F
And I began to talk to myself almost immediately
C G F G C
Not being used to being the only person there mm
F C F
The first time I made coffee for just myself, I made too much of it
C G F C
But I drank it all just 'cause you hate it when I let things go to waste
F Am F
And I wandered through the house like a little boy lost in the mall
C G F G
And an astronaut could've seen the hunger in my eyes from space
C G F C
And I sang, "Oh, what do I do? What do I do? What do I do?
G C
What do I do without you?"
F C F
On the morning when I woke up without you for the first time
C G F C
I was cold so I put on a sweater and I turned up the heat
F Am F
And the walls began to close in and I felt so sad and frightened
C G F C
I practically ran from the living room out into the street
F C F
And the wind began to blow and all the trees began to pant
C G C
And the world in its cold way started coming alive
F Am F
And I stood there like a businessman waiting for a train
C G C
And I got ready for the future to arrive
C G F C
And I sang, "Oh, what do I do? What do I do? What do I do?
G C C F C F C G C
What do I do without you?
